

REDARC WINS MULTIPLE MANUFACTURERS' MONTHLY ENDEAVOUR AWARDS FOR MANUFACTURING

Thursday, 9 July 2020

REDARC is excited to have been announced as the winner of both the Global Supply Chain Integration of the Year and Manufacturer of the Year at the annual Manufacturers' Monthly Endeavour Awards. While there was no official ceremony this year due to COVID-19 restrictions, winners and finalists were announced in Manufacturers' Monthly and online on the 8th of July.

For the last 17 years, the Endeavour Awards have recognised the achievements of manufacturing industry leaders and aim to reward excellence in Australian manufacturing. As the premier awards within the manufacturing industry, they bring together some of Australia's best manufacturing innovators.

This year, REDARC was nominated and subsequently won in two categories. The **BCDC In-vehicle Charger** was nominated for Global Supply Chain Integration of the Year which recognises manufacturers for their unique products which allow them to successfully access the global supply chain. REDARC also won Manufacturer of the Year, the most prestigious award of the event, celebrating success in all facets of manufacturing.

Managing Director, Anthony Kittel was proud of the recognition received for REDARC's ongoing improvement and innovation in manufacturing for both the Australian and international market.

"These awards are a testament to the dedication to innovation and hard work which is embraced by our entire workforce. For REDARC, a specific focus on designing products for manufacture and a culture of continuous improvement is the way we continue to ensure excellence in manufacturing."

REDARC has previously been awarded both the Global Supply Chain Integration and Manufacturer of the Year awards, and this further recognition of their contribution towards manufacturing in Australia builds on these successes.

"It sends a very positive message to the Australian manufacturing sector, Australian business and global markets that Australian manufacture is innovative, cutting edge and ready to engage both locally and internationally," said Carl Bezuidenhout, executive director for business development for BDO and a judge at this year's awards.

The Endeavour Awards are presented annually by *Manufacturers' Monthly*. To find out more information on the Endeavour Awards view the [full list of winners](#) or see REDARC's [2018](#) and [2019](#) achievements.
