COMING EVENTS/DATES

TUESDAY 21 AUGUST

THE SOUTH AUSTRALIA DINNER
QUIET ACHIEVER
SA DEFENCE INDUSTRY
S U C C E S S S T O R I E S
JIM GROSE - AXIOM PRECISION MANUFACTURING
SCOTT BEGBIE - APC TECHNOLOGY

Axiom Precision Manufacturing was established in 1979 and was primarily a metal and plastics automotive parts manufacturer until about 12 years ago when Managing Director Jim Grose recognised the need to diversify ahead of most in the industry due to the likely end of auto assembly in Australia. Today Axiom is primarily a high precision defence oriented manufacturer turning out parts for the JSF and other projects. Axiom's turnover is about to surpass its peak in the heyday of the auto industry. Already a clear leader in the field, Jim Grose is an ILF Scholar and has completed two modules of the three module Owner President Manager course at Harvard to ensure he and Axiom stay well in front.

APC Technology is over 30 years old and produces ruggedized computing solutions that will withstand shock, vibration, dust, dirt, temperature and water. Managing Director, Scott Begbie has ensured that APC has built a reputation for top quality customised solutions by ensuring its heritage of engineering excellence is found in new, innovative products that are solving real life challenges for customers and end users. Scott received an ILF grant to complete the Advanced Management and Leadership Program at Oxford Said Business School.

Both speakers will demonstrate how superior leadership, a passion for innovation, building a great team and exerting a huge work ethic have driven their businesses to greater success. You will be amazed when you hear about these success stories, stories that in all probability very few outside of industry circles know about. Attendance at this dinner is essential if you enjoy great food, fabulous wine, good company and amazement all wrapped inside two hours.
