

BMG Press Release
3rd February 2025

We are pleased to announce that BMG Bespoke Manufacturing Group has successfully acquired Metalcraft & Bott Storage Systems Australia & New Zealand. This strategic acquisition aligns perfectly with our existing companies and assets, enhancing our capabilities and capacity.

This investment extends our manufacturing offerings and strengthens our position in the contract manufacturing and finishing sectors. It strategically positions us in the automotive manufacturing and installation sectors, enabling us to manufacture & distribute Bott products in both Australia and New Zealand, as well as manage the full installation of service, fleet, and recreational vehicles and accessories.

The acquisition represents a strong step forward in our ongoing commitment to reinvestment and continuous growth. The synergy within the BMG group now includes Bespoke Aluminium, Key Manufacturing, Metalcraft Manufacturing, Bott Storage Systems Australia & New Zealand, and Bespoke Products. We are excited about the future and the expansion of our workforce across three sites in Adelaide, totaling a footprint of 20,000m².

"Our combined machining, servicing, and finishing capabilities are a rare combination, showcasing our dedication to local manufacturing and investment in South Australia. We remain focused on continuing the distribution of aluminium, supply contract manufacturing, finishing, and Bott vehicle storage solutions,"

Robert Statham, CEO / Managing Director of BMG Bespoke Manufacturing Group.

Additionally, the complementary services offered by our group enhance all aspects of our business. The cross-pollination of skilled staff members within the group ensures comprehensive solutions that meet the diverse needs of our customers, leveraging the expertise of our team members to drive innovation.

At BMG, we are dedicated to being Australia's most customer-centric aluminium supply organisation, providing exceptional and personalised customer service and solution-oriented operational excellence. Our vision is to be an Australian powerhouse of manufacturing, fabrication, finishing, assembly, and sourcing.

We look forward to the opportunities that the group expansion brings and are confident it will drive further growth and enhance our service offerings to both our existing and new customer base. Bespoke Manufacturing Group is committed to contributing to the growth of manufacturing and employment in South Australia, while continuing to foster innovation and expand our manufacturing expertise and offerings in the region.

Thank you for your continued support.

Sincerely,
BMG - Bespoke Manufacturing Group
